

1. Microscopes

- oLeica SP5-II spectral confocal microscope (2009)
- oNikon spinning disk confocal microscope (2020)
- oNikon BioPipeline Slide Scanner (2020)
- oNikon image analysis workstation (2020)

2. Histology and Immunohistochemistry

- oMicrom HM355S microtome
- oMicrom HM550 cryostat
- oLeica ASP6025 tissue processor
- oLeica HistoCore Arcadia C paraffin embedding station
- oLeica BOND RXm autostainer

3. BioDRoid

- oTecan D300e Digital Dispenser
- oDrummond Scientific Nanoject III Programmable Nanoliter Injector
