

ORANGE GROVE CAMPUS

THE UNIVERSITY OF ARIZONA CANCER CENTER

- A National Cancer Institute-designated Comprehensive Cancer Center
- Personalized treatment by a nationally renowned team of specialists
- The prestigious Magnet Organization from the American Nurses Credentialing Center recognizes our commitment to the highest standards of nursing excellence

Multidisciplinary and Personalized Approach to Care

.....

Patients at the University of Arizona Cancer Center Orange Grove have access to a complete multidisciplinary team and supportive resources, including psychosocial oncology, social workers, financial liaison counselor, high-risk clinic and American Cancer Society patient navigator.

Community Outpatient Clinic

.....

The newest addition to University of Arizona Cancer Center's outpatient clinical facilities

- Serving Northwest Tucson, Oro Valley, Marana and surrounding areas of Pima County and Cochise County
- Conveniently located near West Orange Grove Road and North La Cholla Boulevard
- Physicians specializing in medical oncology, radiation oncology, and surgical oncology offer leading-edge diagnoses and treatment and have access to multiple clinical trials
- The facility has an on-site laboratory and pharmacy services

Infusion Services

.....

The Orange Grove clinic provides infusion of biologic therapies and intravenous bisphosphonates in addition to chemotherapy

- Referrals for IV infusion therapy are welcome from community physicians
- The nurse-to-patient ratio never exceeds 1-to-4
- On-site medical staff provide supervision and rapid response to urgent needs
- Our infusion nurses, experienced in chemotherapy as well as non-chemotherapy medications, are competent to access ports, PICCs and IV catheters for infusion and lab draws
- Doctors of pharmacology participate in care and education of patients
- Patients receive treatment in open, light-filled spaces where they can visit with other patients, family or friends; watch a TV next to their chair or move into a private courtyard

ORANGE GROVE CAMPUS

Radiation Oncology

Radiation therapy services now available

- State of the art Varian Trilogy system that offers power, precision and versatility with rapid arc technology
- Intensity modulated radiation therapy coupled with cone beam CT assures precise localization of the tumor
- Shorter treatment times
- Precision spares healthy tissues
- PET-CT Simulator for visualizing the tumor for the best accuracy possible
